Odometer Solutions, LLC

Atlanta, GA (Remote)

Intern Junior Full Stack Developer

01/2023 - 09/2023

- Ensure applications' ability to interact with multiple APIs and databases
- Developed and implemented a standalone data extraction agent and main-application features for a financial product
- Work closely with app development team to determine problems, testing methods, and best practices
- Participated in the intricate design and optimization of a custom database management system, collaborating on schema design and ensuring effective integration with both SQL and NoSQL databases. Gained hands-on experience in ETL processes, performance tuning, and API development. Engaged in critical tasks like concurrency control, database indexing, and implementing security measures such as encryption and authentication. Authored detailed technical documentation and was instrumental in optimizing SQL queries, reducing execution time by 50%, and ensuring a seamless migration of legacy data to the new system.
